

## 8.6 ROOF DRAINAGE

---

Where the ground is unsuitable for underground sumps to take rainwater from roofs, it be channelled into a suitable pipe to be laid under the footpath of the adjoining street and discharged into street drains, with the approval of the Chief Executive Officer.

The owner of such a dwelling will bear the full cost of this work, but it is to be carried out under the supervision of a Shire employee.

**ADOPTED: COUNCIL 18 MAY 1995**
