#### **PURPOSE**

To consider entering in a further Memorandum of Understanding (MOU) with the Department of Fire and Emergency Services (DFES) for the provision of a Community Emergency Services Manager (CESM) to the Shire of Gingin.

#### **BACKGROUND**

At its meeting on 16 December 2014, Council resolved to enter into a MOU with DFES for the provision of a CESM for the Shire of Gingin. The MOU covered a period of three and a half years, with the option to extend for a further three years. The initial MOU period expires on 30 June 2018.

At the Concept Forum held on 6 March 2018, Council discussed the CESM position and indicated that it was generally supportive of the current arrangements. On that basis, the then Chief Executive Officer commenced negotiations with DFES with respect to exercising the option for a further three year term.

#### **COMMENT**

DFES has introduced a new MOU template subsequent to the original CESM MOU being executed in 2014. Whilst no major changes to the terms of employment for the position are proposed, it is considered prudent to present the new MOU to Council for formal consideration and adoption. A copy of the new MOU document is provided for Council's attention as **Appendix 1**.

#### **PURPOSE**

To consider and adopt the Shire of Gingin's differential rating options for the 2018/19 financial year.

#### **BACKGROUND**

Local governments are empowered to impose differential general rates subject to compliance with Section 6.33 of the *Local Government Act 1995*.

The Shire of Gingin first introduced differential rating in the 2011/12 financial year and has continued to use this method of rating in each subsequent year.

Differential rating provides Council with flexibility in the level of rates being raised from specifically identified properties or groups of properties within the community. It is common for Councils to base differential rating for properties on Local Planning Scheme zonings; however other criteria such as land use may be used. Differential rating in the Shire of Gingin has, to date, been based on land use since 2011/12.

Once Council has made a final determination after taking into consideration the objectives of the Strategic Community Plan, Corporate Business Plan and the rating strategy, the proposed differential general rates in the dollar can be determined. Rates should not be increased by a fixed amount without due consideration of the deficiency. Unless the approval of the Minister is given, the amount expected to be raised through all types of local government rates must be within 90% to 110% of the deficiency of the budget (s6.34). This acts to limit the amount that may be raised by rates, but only in proportion to the expenditure requirement determined by the local government and not in the manner of a set cap on the maximum level of income which can be raised through rates.

Council is required to give local public notice prior to imposing any differential general rates, or any minimum payment applying to a differential rate category, for a minimum of 21 days. Council does, however, have the discretion to vary the rate in the dollar and minimum rate during its budget deliberations without having to re-advertise the changes.

Before local public notice is given, proposed rates should be determined by Council, together with the objects and reasons providing justification for each differential general rate or minimum payment. It is important that these provide sufficient supporting information to

electors and ratepayers, otherwise the local government may be asked to readvertise by the Minister for Local Government (the Minister).

The following table depicts the differential rates set for the 2017/18 financial year:

DIFFERENTIAL RATES 2017/18			
Differential Rate Category	UV Rate in \$	Minimum Rate	Income
Rural & Other - UV	\$0.004504	\$1,260	\$1,805,758
Rural Intensive/Mining – UV (excluding exploration and prospecting tenements)	\$0.008448	\$2,240	\$768,443
Differential Total Revenue			\$2,574,201

## COMMENT

Officers have prepared various rating scenarios which are attached for Council's consideration (refer **Appendix 1**). A Statement of Objects and Reasons for Differential Rates is also provided (refer **Appendix 2**).

It is recommended that the 2% scenario be included in the draft 2018/19 Budget.

Notwithstanding actual rates raised, Council currently offers concessions for those Rural Intensive properties where only an identifiable portion is being used for intensive purposes. For 2018/19 these concessions are estimated at \$100,000.

The Gross Rental Value (GRV) rate in the dollar and minimum rate are not required to be advertised as there is only one uniform General Rate used for GRV properties.

## CONCLUSION

For the purpose of Budget discussions, the 2018/19 draft Budget rates modelling has been calculated using 2018/19 Unimproved Value (UV) revaluations received from Landgate Valuation Services. It is pertinent to note that the revaluation has resulted in a decrease (\$22,587,719) in all UV valuations for the 2018/19 year. This equates to a five percent decrease in overall UV valuation for the 2018/19 financial year.

In accordance with long standing Council practice, annual valuation movements have been factored back to eliminate any increase/decrease in Shire rate revenue from such valuation changes. There are a significant number of properties that will see either a large increase or decrease in rates payable due to the varying changes in valuations provided by Landgate for the 2018/19 financial year.

The “Rate in the \$” for UV - Rural and Other and UV Rural Intensive/Mining properties has been factored back to eliminate the decrease in valuations prior to applying the 2% per cent increase.

Following discussion at Council’s Concept Forum of 6 June 2018, the general consensus was that a 2% increase be applied across Unimproved (including Rural–Intensive) Differential valued properties (after factor back) together with a proposed 2% increase for Gross Rental valued properties.

## SHIRE OF GINGIN

# Statement of Objects and Reasons for Differential Rates 2018/19

## Introduction

For the purpose of determining rates each year, property valuations have been the standard basis for the calculation of rates, not only in Australia, but for many overseas countries as well. However, it is recognised that valuations alone do not always produce equitable results in all communities and therefore the *Local Government Act 1995* provides several options, such as differential and specified area rates, to assist in achieving the desired rating outcome.

The purpose of levying rates is to meet the Council's budget requirements each year in a manner that is deemed to be fair and equitable to the ratepayers of the community.

## Methods of Rating - Gross Rental Valuations and Unimproved Valuations

The *Local Government Act 1995* specifies that where land is used predominantly for rural purposes, the rate levied shall be based upon its unimproved value (UV); and where land is used predominantly for non-rural purposes, the rate levied shall be on its gross rental value (GRV). A change in valuation methodology for a property must be made by the Council to the Department of Local Government. The Minister for Local Government must then approve a change of valuation methodology for a property, based on the recommendation by the Department.

In accordance with the *Local Government Act 1995* the Shire of Gingin uses a combination of Gross Rental Valuations (GRV) and Unimproved Valuations (UV) in the calculation of annual rates. Properties assigned a UV are revalued every year with properties assigned a GRV being revalued every four years by the Valuer General (Landgate).

Interim valuations are issued to Council by Landgate for properties where changes have occurred as a result of subdivisions, building construction/demolition, additions and/or property rezoning. In such instances Council must amend the rates for the properties concerned and issue an amended rate notice to the property owner.

## Applicable Valuations

The valuations to be applied this coming year for UV properties, by comparison to last year, are shown below:

Category	Valuation Type	Current	Future	Count	Variance	% Change
Rural and Other – UV (including exploration licences)	UV	364,261,304	343,448,090	835	-20,813,214	-5.71%
Rural Intensive/ Mining – UV (excluding exploration licences)	UV	81,033,690	79,259,185	216	-1,774,505	-2.19%
<b>Total UV</b>		<b>445,294,994</b>	<b>422,707,275</b>	<b>1,051</b>	<b>-22,587,719</b>	<b>-5.07%</b>

## Differential Rating

Differential rating allows Council flexibility in the level of rates being raised from specifically identified properties or groups of properties within the community. It is common for Councils to base differential rating for properties on Town Planning Scheme zonings however other criteria such as land use may be used.

The aim of the Shire of Gingin is to ensure that rate revenue is collected on an equitable basis from all properties. For this reason the Council has proposed to adopt differential rates for the 2018/19 financial year.

Section 6.33 of the *Local Government Act 1995* makes provision for the Shire to be able to levy differentials based on a number of criteria:

- (1) *A local government may impose differential general rates according to any, or a combination, of the following characteristics -*
  - (a) *the purpose for which the land is zoned, whether or not under a local planning scheme or improvement scheme in force under the Planning and Development Act 2005; or*
  - (b) *a purpose for which the land is held or used as determined by the local government; or*
  - (c) *whether or not the land is vacant land; or*
  - (d) *any other characteristic or combination of characteristics prescribed.*

Section 6.33 of the *Local Government Act 1995* also permits Council to levy differentials such that the highest is not more than twice the lowest differential. A greater difference in differentials may be used, which requires Ministerial approval.

The Shire intends to establish the following differential rate categories for the 2018/19 financial year:

- Rural and Other – UV
- Minimum payment in respect to Rural and Other – UV
- Rural Intensive/Mining – UV
- Minimum payment in respect to Rural Intensive/Mining – UV

A uniform rate in the dollar will be applied to GRV rated land.

## Minimum Payments

Section 6.35 of the *Local Government Act 1995* makes provision for the Shire to be able to set a minimum payment in relation to rateable land. This is set out below:

### 6.35 Minimum payment

- (1) *Subject to this section, a local government may impose on any rateable land in its district a minimum payment which is greater than the general rate which would otherwise be payable on that land.*

Statement of Objects and Reasons for Differential Rates 2018/19

Shire of Gingin

- (2) *A minimum payment is to be a general minimum but, subject to subsection (3), a lesser minimum may be imposed in respect of any portion of the district.*
- (3) *In applying subsection (2) the local government is to ensure the general minimum is imposed on not less than —*
  - (a) *50% of the total number of separately rated properties in the district; or*
  - (b) *50% of the number of properties in each category referred to in subsection (6),**on which a minimum payment is imposed.*
- (4) *A minimum payment is not to be imposed on more than the prescribed percentage (50%) of —*
  - (a) *the number of separately rated properties in the district; or*
  - (b) *the number of properties in each category referred to in subsection (6),**unless the general minimum does not exceed the prescribed amount (\$200).*
- (5) *If a local government imposes a differential general rate on any land on the basis that the land is vacant land it may, with the approval of the Minister, impose a minimum payment in a manner that does not comply with subsections (2), (3) and (4) for that land.*
- (6) *For the purposes of this section a minimum payment is to be applied separately, in accordance with the principles set forth in subsections (2), (3) and (4) in respect of each of the following categories —*
  - (a) *to land rated on gross rental value; and*
  - (b) *to land rated on unimproved value; and*
  - (c) *to each differential rating category where a differential general rate is imposed.*

## Overall Objective

### SHIRE OF GINGIN STATEMENT OF OBJECTS AND REASONS FOR DIFFERENTIAL RATES - 2018/19

#### OBJECTIVES AND REASONS FOR DIFFERENTIAL RATING

To provide equity in the rating of properties across the Shire, the following rate categories have been determined for the implementation of differential rating.

#### Differential General Rate

Description	Characteristics	Objects	Reasons
Rural and Rural Other (including exploration and prospecting tenements).	Where land is used predominantly for rural purposes, the rate levied shall be based upon its unimproved value (UV).	The objective of this differential rating category is to impose a differential general rate on land held or used for the purposes of rural broad acre farming, rural residential, rural industry and other non-intensive uses as determined by Council (including exploration and prospecting tenements).	It recognises that land within this category does not have the same impacts on Shire transport infrastructure as the rural intensive/mining differential rate category.
Rural Intensive/Mining (excluding exploration and prospecting tenements)	Any or a combination of the following characteristics: (a) The purpose for which the land is zoned, whether or not under a local planning scheme or improvement scheme in force under the <i>Planning and Development Act 2005</i> ; (b) a purpose for which the land is held or used as determined by the local government; (c) whether the land is vacant or not; or (d) any other characteristic or combination of characteristics prescribed.	The objective of this differential rating category is to impose a differential general rate on land held or used for the purposes of Agriculture Intensive, Animal Husbandry - Intensive (excluding exploration and prospecting tenements), Extractive Industry, Mining, Aquaculture, or Water.	It recognises that land within this category has higher impacts on Shire transport infrastructure and increased environmental monitoring costs.

Shire of Gingin

**Differential Minimum Payment**

<b>Description</b>	<b>Characteristics</b>	<b>Objects</b>	<b>Reasons</b>
Rural and Rural Other (including exploration and prospecting tenements).	Where land is used predominantly for rural purposes, the rate levied shall be based upon its unimproved value (UV).	The objective of the proposed minimum payment of \$1,285 (from \$1,260) is to ensure that the proportion of total rate revenue derived from Rural and Rural Other UV properties is essentially consistent with the overall rate increase for this category (including exploration and prospecting tenements).	It recognises that every property receives a minimum level of benefit from works and services provided.
Rural Intensive/Mining (excluding exploration and prospecting tenements).	Any or a combination of the following characteristics: (a) The purpose for which the land is zoned, whether or not under a local planning scheme or improvement scheme in force under the <i>Planning and Development Act 2005</i> ; or (b) a purpose for which the land is held or used as determined by the local government; (c) whether the land is vacant or not; or (d) any other characteristic or combination of characteristics prescribed.	The objective of this minimum payment is to reflect the additional costs from this sector associated with the higher impact on transport infrastructure and environmental monitoring. The minimum rate of \$2,285 (from \$2,240) also ensures that the proportion of total rate revenue from Rural Intensive/Mining UV properties (excluding exploration and prospecting tenements) is essentially consistent with the overall rate increase for this category.	It recognises that land within this category has higher impacts on Shire transport infrastructure and increased environmental monitoring costs, and the capacity of property owners to pass on the rates charge as a business cost.

## Statement of Objects and Reasons for Differential Rates 2018/19

Shire of Gingin

A summary of the differential rates to be used for the 2018/19 rating period are as follows:

Differential Rate Category	UV Rate in \$	Minimum Rate	Income
Rural & Other - UV	\$0.004960	\$1,285	\$1,851,412
Rural Intensive/Mining - UV	\$0.008821	\$2,285	\$776,873

### In Summary

In arriving at the proposed differential rates in the dollar, the Council has attempted to balance the need for revenue to fund essential services and facilities with the desire to limit any increase on the ratepayer to affordable levels.

Submissions addressed to the Chief Executive Officer, Shire of Gingin by electors or ratepayers in respect of the Intention to Levy Differential Rates may be made to Council within twenty one (21) days of this notice and close 4pm on .....

## 11.2.2 AMENDMENT OF 2017/18 SCHEDULE OF FEES AND CHARGES

<b><i>ADDENDUM – SPECIAL MEETING OF COUNCIL – 6 JUNE 2018</i></b>
-------------------------------------------------------------------

### **Additional Information:**

Subsequent to circulation of the Agenda, a number of inconsistencies were identified in **Appendix 1** (Schedule of Fees and Charges 2017/18 Amended).

These inconsistencies have now been corrected, and the amended Schedule will be included in the Minutes of the meeting.

This addendum has no effect on the officer's recommendation.

### **OFFICER INTEREST DECLARATION**

Nil

### **PURPOSE**

To consider amending Council's adopted 2017/18 Schedule of Fees and Charges.

### **BACKGROUND**

The *Local Government Act 1995* (the Act) provides local governments with the power to impose and recover a fee or charge for any goods or service it provides or proposes to provide, other than a service for which a service charge is imposed. Fees and charges are to be imposed when adopting the annual budget, but may also be imposed during a financial year or amended from time to time during a financial year.

In previous years, Council has adopted a Schedule of Fees and Charges in conjunction with adoption of the annual budget, with the new fees and charges coming into effect from the date of adoption. However, given that budget adoption does not take place until after the start of the financial year (usually early in July), this arrangement means that any fees and charges raised between 1 July and the date of budget adoption must be levied in accordance with the Schedule for the previous financial year.

Under s. 6.16 of the Act, Council is not permitted to adopt a Schedule of Fees and Charges for any financial year other than the year in which the decision is being made. However, it is possible for Council to amend its current Schedule. Therefore, in order to resolve the anomaly identified above, it is proposed that Council consider amending its adopted 2017/18 Schedule of Fees and Charges to reflect those fees and charges proposed for the 2018/19 financial year. The amended Schedule would come into effect on 1 July 2018 and ensure that all fees and charges levied in the 2018/19 financial year are consistent.

It is important to emphasise that the officer's recommendation in this instance is to amend the adopted 2017/18 Schedule of Fees and Charges. It will still be necessary for Council to adopt a new Schedule for the 2018/19 financial year in conjunction with adoption of the budget for that year.

## **COMMENT**

An amended Schedule of Fees and Charges for the 2017/18 financial year has been prepared for Council's consideration (**Appendix 1**).

A review of all fees and charges has been undertaken to ensure they remain relevant. New fees have been included in the Schedule where necessary.

Most fees previously adopted in 2017/18 have not changed, although fees associated with plant hire and private works have increased where necessary to ensure full recovery of costs associated with private works. Building and planning fees may be subject to amendment from time to time as approved by legislation and, if amended, any new fees will apply from the date of gazettal.

The remainder of fees have only been increased marginally where deemed appropriate.

In the event that Council is supportive of the officer's recommendation, then a minimum of seven days' public notice is required prior to the amended 2017/18 Schedule of Fees and Charges coming into effect.

## **STATUTORY ENVIRONMENT**

*Local Government Act 1995*

Part 6 – Financial management

Division 5 – Financing local government activities

Subdivision 2 – Fees and charges

## **POLICY IMPLICATIONS**

Nil

## **BUDGET IMPLICATIONS**

Given that the amended Schedule of Fees and Charges, if adopted by Council, will not come into effect until 1 July 2018, there will be no impact on the current 2017/18 budget. Any increases in fees and charges resulting from the amendment will be recognised in the draft 2018/19 budget.

Councillor and Mrs Johnson and Councillor and Mrs Collard were also in attendance, as was the Acting Chief Executive Officer and the Shire's Corporate Communications and Marketing Officer.

Councillor Court reported that this was an interesting workshop, but she found it disappointing that the consultants engaged to develop a "regional brand" for the Northern Growth Alliance ran the workshop as an information gathering session and didn't actually present any suggestions about issues such as how to incorporate rural and coastal areas under the one brand.

A further workshop will be held on 23 June to enable more representatives from the Shire of Chittering to participate and following that outcomes will be presented to each of the Shires for consideration.
